## THE BACKGROUND

Spanky the monkey was going on a picnic in the forest of Mopoland, when suddenly out of nowhere, bricks came falling down from the sky, creating towers that reached to the clouds. A strange voice spoke to Spanky who was trapped in one of the towers. "He, he, he what do you think of my beautiful home? I am Morticia from the world of darkness. I have come to bring darkness into this world. From now on, this is my world."

"What are you talking about? This is not your world, but ours. Let me out of here."

"No way! You will play tag with my crow. Maybe, the more the merrier. Abracadabra!"

All the fruits in Spanky's knapsack rolled out, shook around a bit and started growing arms and legs.

"If you can come to my tower, I may set you free, but I wonder if you can make it, he, he, he."

"Hold on Morticia, I'll come to defeat you and set my world free."

# WORLDS

Spanky's Quest consists of 5 worlds:

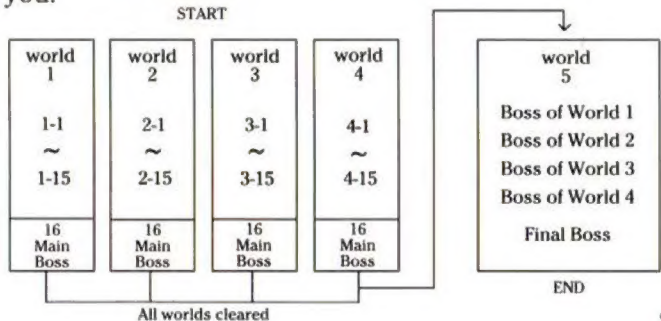

- 1- NORMAL WORLD
- 2- SLIPPERY WORLD
- 3- PUZZLE WORLD
- 4- NO Foothold WORLD
- 5- ALL BOSSES WORLD

One world has sixteen stages, Worlds 1-4 stages can be completed in any order. When the boss in the last stage has been defeated, player may move on to any world between 1-4 that has not yet been cleared. When world 1-4 have been cleared, the player may move on to world 5. World 5 contains all of the previous bosses encountered as well as "Morticia". Defeat "Morticia", and you have completed the game.

# STAGES

In each stage, there are 1~ 8 enemies. By defeating all the enemies, you clear the stage, and you may move on to the next one. In each stage, there is a time limit of 30 seconds to 5 minutes. After the time limit, an invincible enemy character will come out and defeat you.

## LIVES

Player starts with 3 lives. When hit by enemies, player will die. If a player has lives left, he will begin at the start of the stage he left off.

When all of the players lives are gone, the game is over and the player has the option to end or continue the game. If continue is chosen, the player will restart where he ended.

**PASSWORD:** by using a password you can begin at any stage.

## CONTROLLING SPANKY

Spanky's Quest is a game of quick action and split timing. Mastery may take a lot of practice.

Control Button:  
Moves Spanky **Left or Right**

A Button:  
Enables Spanky to **Jump**

B Button:  
Use this Button to release the  
ball and attack.

## METHODS OF ATTACK

The white Magic ball is released by pushing the B button. Heading this ball will cause the magic ball to get bigger. Holding down the B button while heading causes the ball to turn into an attack ball. Use this attack ball to defeat the enemies. If the enemy is hit by a white magic ball, he will only be paralyzed for a while, a black attack ball will however defeat the enemy. Increasing the number of times the white magic ball is headed, increases the power that is unleashed when turned into an attack ball.

## METHODS OF ATTACK cont.

HEAD 1	power X1
HEAD 2-3	power X2
HEAD 4-5	power X3
HEAD 6-7	power X4

When the ball is at 4X power, and the B button is pressed, the ball becomes a black damaging weapon.

When the ball is at 1X power, it is weakest and will defeat only one enemy, after which it will disappear.

When the ball is at 2X power, it explodes at the enemy, and it has the power to defeat other enemies as well.

When the ball is at 3X power, the ball will defeat all the enemies in its path.

When the ball is at 4X power, the ball divides in 5 and defeats all the enemies in the balls trajectories.

## *P*OINTS CALCULATION:
